

PROSOFT Corporate Overview

Professional Software Engineering, Inc. (PROSOFT) is an information technology and engineering company with a reputation built on cost-effective, quality performance. Headquartered in Virginia Beach, Virginia, PROSOFT has provided quality services through innovative technologies and outstanding customer satisfaction to a broad range of Government and commercial clients for over 20 years.

PROSOFT's strength is its people. Our workforce is well educated, certified, accomplished and experienced to meet the challenges and fast pace of today's IT Industry. Over one-third of our employees possess bachelor's degrees, more than one in ten possess advanced degrees and over seventy-five percent have Government security clearances. Our technical staff includes numerous Microsoft Certified Professionals (MCP), Cisco Certified Internetwork Experts (CCIE), Microsoft Certified System Engineers

(MCSE), Microsoft Certified Trainers, (MCT), Cisco Certified Network Associates (CCNA), and BICSI certified technicians. PROSOFT supports and maintains an aggressive training program to ensure that our employees are fully capable of applying the latest technologies to our customer's needs. Over half of our employees have over twenty years of experience in their fields. This depth of knowledge and experience ensures that PROSOFT can assemble and employ a highly qualified workforce for all tasks and projects.

Integrated Training Technologies:

PROSOFT's Integrated Training Technologies (ITT) Group is a leader in providing the full spectrum of training products and services, including job/task and training requirements analysis, interactive multimedia instruction (IMI), courseware design and development, distributed learning program implementation, train-the-trainer and mobile training team instruction, and training effectiveness evaluation and assessment. The ITT Group consists of a cadre of qualified training analysts, Instructional System Designers and Developers, graphics designers, technical writers and Subject Matter Experts that provide comprehensive training related products and services. We have provided ITT support to numerous clients including the U.S. Army Training and Doctrine Command HQ, the Army Training Support Center, the Army Signal School and the Combined Arms Services Command. Examples of our Integrated Training Technologies capabilities include:

- Training Design and Development Standards
- Training Development
- Instructional System Design
- Training Requirements Analysis
- Training Needs Assessment
- Operations Research Analysis
- Staff and Faculty Training
- Engineering and Analytical Services
- Video Teleconferencing
- Joint Training
- Distributed Learning

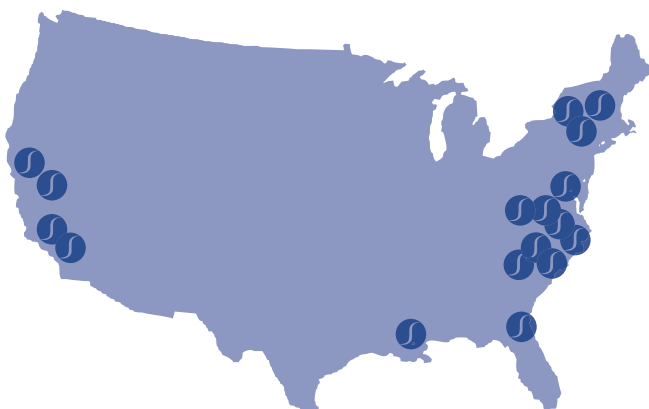

Communications and Information Engineering:

PROSOFT's Communications and Information Engineering (CIE) Group is a quality leader in the design, development, installation, testing, and maintenance of communications and information systems. We have provided communications and information systems engineering support to numerous Government clients, including the U.S. Joint Forces Command (JFCOM), the Joint Center for Operations Analysis (JCOA), the Defense Information Systems Agency (DISA), the U.S. Army Training and Doctrine Command (TRADOC), the U.S. Navy Submarine Maintenance Engineering Planning and Procurement Activity (SUBMEPP), the U.S. Navy Mid-Atlantic Regional Maintenance Center (MARMAC), the U.S. Coast Guard and the United States Marine Corps Systems Command (MARCORSYSCOM).
